Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$400/person	Generally, you must pay all of the costs from providers up to the deductible amount before the plan begins to pay.
Are there services covered before you meet your deductible ?	Yes. Preventive care and office visits are covered before you meet your deductible .	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply.
Are there other deductibles for specific services?	Yes, \$400 per confinement if inpatient hospital stay is not pre-certified.	You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services.
What is the out-of-pocket limit for this plan ?	Not Applicable	This plan does not have an out-of-pocket limit on your expenses.
What is not included in the out-of-pocket limit ?	Not Applicable	This plan does not have an out-of-pocket limit on your expenses.
Will you pay less if you use a network provider ?	Yes, for professional services only. Please visit https://providerlookup.healthsmart.com/searchproviders.aspx and choose HealthSmart Physician/Ancillary Only, call (866) 363-2733, or download the HealthSmart app for a list of network providers . There is no network for institutional services (facilities).	This plan uses a provider network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your network provider might use an out-of-network provider for some services (such a lab work). Check with your provider before you get services.
Do you need a referral to see a specialist ?	No	You can see the specialist you choose without a referral .

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.
